Capacity: 60 Gallons
Box size and weight:
31 x 7 x 5" / 6lb
When full of water:
25" Diameter x 31.9" High

Capacity: 105 Gallons
Box size and weight:
44 x 7.3 x 5" / 9lb
When full of water:
27" Diameter x 43.7" High

Assembly Instructions

- 1** Unpack the contents - ensure all parts are correct.
- 2** Unfold and open your blue FlexiTank reservoir.
- 3** Attach the tap to the bottom of the FlexiTank by pushing it through the hole. Keep the tap at a 90 degree angle anticlockwise and ensure there is a rubber washer on the outside and the inside of the reservoir. Tighten the nut as far as possible by hand.
- 4** Insert all support poles into the side sleeves of the FlexiTank
- 5** The Flexitank reservoir is now ready to be turned upright and moved into place. Ensure that the Flexitank reservoir is placed on a flat and smooth surface to prevent damage to the plastic.
- 6** Fill the Flexitank reservoir. Once full with water, twist the tap 90 degrees clockwise to the correct position.
- 7** The FlexiTank reservoir comes with a 6 month guarantee, covering manufacturing defects. Any misuse of the product is not covered by the guarantee.

Do not attempt to move the FlexiTank when it has ANY amount of water in it. The FlexiTank must be completely drained before moving. Failure to do so will void your warranty. **DO NOT MOVE THE TANK WHEN IT IS FULL.**
